

Alarms Overview

Description

This report provides an overview of your virtual environment current health state that includes most common alarms and most affected VI objects.

Report Parameters

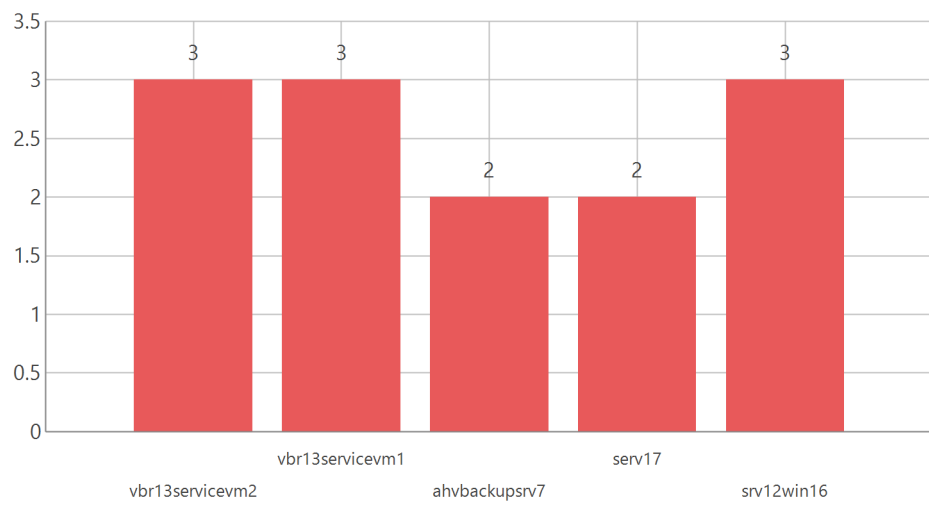

Scope: Virtual Infrastructure
 Reporting period: 1 week (7/8/2025 - 7/14/2025)
 Group by: Issue type
 Business View objects:
 Object types: All items
 Alarms: All items

Summary

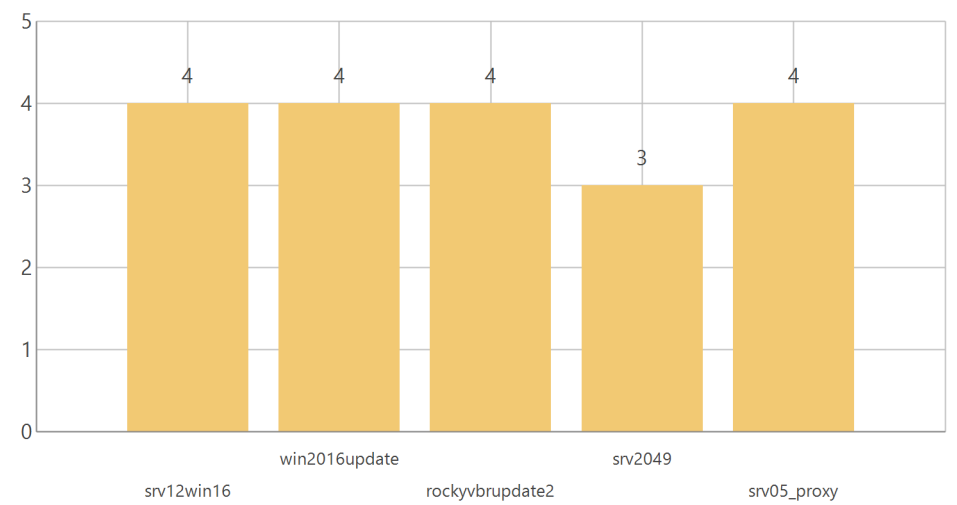

Total Errors: 137
 Total Warnings: 278

Top Objects and Issues

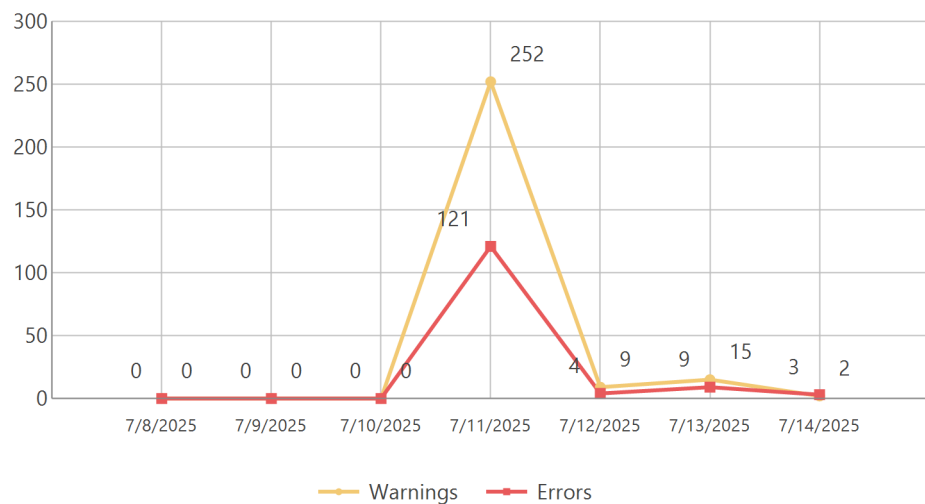

Errors

Warnings

Total Issues

Top 10 Issues

Name	Total Triggered	Total Objects
Latest snapshot age	196	192
Latest snapshot size	155	137
Guest disk space	31	24
Too many snapshots on the VM	28	28
Host NIC link status	5	5

Issue Type: **Error**

Location	Object	Alarms	Trend
Object Type: vSphere Host System		5	
\\Virtual Infrastructure\vcenter01.tech.local\Prague	prgtwesx02.tech.local	<u>1</u>	Increasing
