

CDP SLA Compliance

This report helps to identify whether workloads protected with CDP policy are compliant with the SLA target. The report analyses only time periods when CDP policies were enabled. Supported platforms: VMware vSphere, VMware Cloud Director.

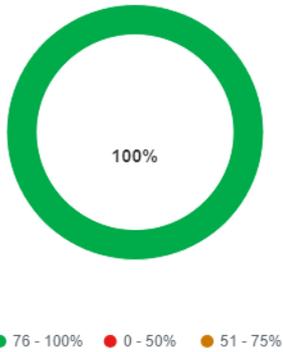

Report Parameters

Protected infrastructure: backupsrv60.tech.local
 Interval: Past week (2/9/2026 - 2/15/2026)
 Workload exclusion rule: —
 Target SLA [%]: 90
 Show non-compliant VMs: All
 Show Business View groups: False

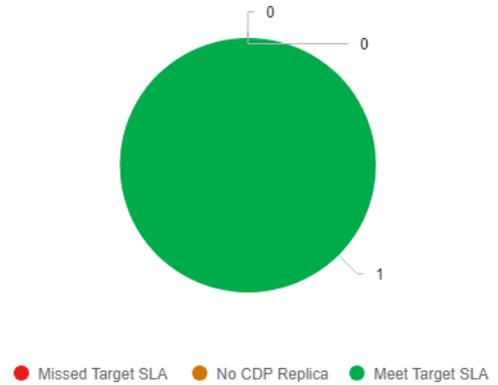

Summary

Discovered Workloads: 1
 Workloads that meet target SLA: 1
 Workloads that missed target SLA: 0
 Workloads with no CDP replica: 0
 Average SLA: 100%

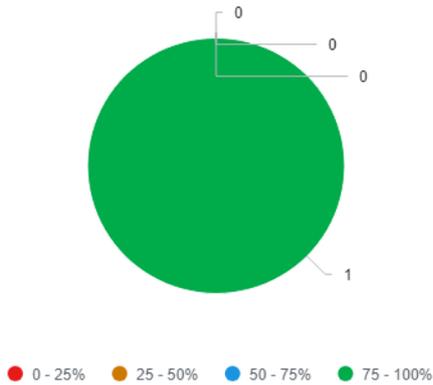

Average SLA

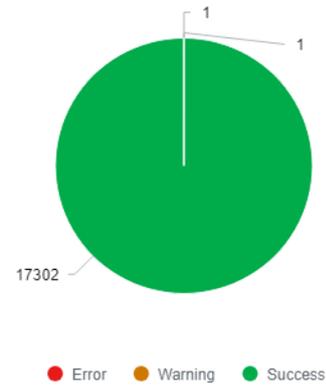

Workloads by Compliance State

Workloads by SLA

Sync Sessions Statistics

Workloads That Meet Target SLA

Workload Name	CDP Policy Name	Original Location	Replica Location	RPO (sec)	Average SLA (%)	Max Delay (sec)	Crash-consistent Restore Points	Application-consistent Restore Points	Success Sessions	Warning Sessions	Failed Sessions	Business View Group
filesrv05	CDP Policy 4	vcenter01.tech.local\CDP cluster	vcenter01.tech.local\prgtwex01-virt.tech.local	15	100	0	6	0	17302	1	1	N/A

Workloads That Missed Target SLA

Workload Name	CDP Policy Name	Original Location	Replica Location	Last Session Status	RPO (sec)	Average SLA (%)	Max Delay	Data Read (GB)	Data Transferred (GB)	Primary Bottleneck	Last Successful Session	Success Sessions	Warning Sessions	Failed Sessions	Business View Group
---------------	-----------------	-------------------	------------------	---------------------	-----------	-----------------	-----------	----------------	-----------------------	--------------------	-------------------------	------------------	------------------	-----------------	---------------------

CDP Sessions Issues

CDP Policy 4

filesrv05

Workload Name	CDP Policy Name	Status	Occurrence Time
filesrv05	CDP Policy 4	Task session completed: Failed to process 1 replica state, 1 replica state processed with warnings, 1976 replica states processed successfully	2/15/2026 8:00 AM
filesrv05	CDP Policy 4	RPO has been exceeded by more than 2 seconds at 15 February 2026 06:23:51	2/15/2026 6:23 AM
filesrv05	CDP Policy 4	Failed to process disks	2/15/2026 3:53 AM
filesrv05	CDP Policy 4	Cannot find suitable proxies to continue CDP (Time: 15 February 2026 03:53:18)	2/15/2026 3:53 AM
filesrv05	CDP Policy 4	Disabling CDP completed with errors Error: Failed to disable source CDP proxy.Failed to check service compatible.	2/15/2026 3:52 AM
filesrv05	CDP Policy 4	Several warnings occurred during filesrv05 processing from 2/15/2026 3:51:58 AM to 3:52:25 AM. See log file Listener.filesrv05_vm-60337 on server backupsrv60 for details.	2/15/2026 3:52 AM
filesrv05	CDP Policy 4	Source Daemon Replicator error: Transmitter stream: connect; Cannot assign requested address	2/15/2026 3:52 AM
filesrv05	CDP Policy 4	RPO has been exceeded by more than 3 seconds at 15 February 2026 03:52:14	2/15/2026 3:52 AM
filesrv05	CDP Policy 4	Failed to process disks	2/15/2026 3:52 AM
filesrv05	CDP Policy 4	Cannot find suitable proxies to continue CDP (Time: 15 February 2026 03:52:02)	2/15/2026 3:52 AM
filesrv05	CDP Policy 4	Connection lost: CDP Coordinator has lost a connection to source CDP proxy virt03-proxy001.tech.local processing virtual disk Hard disk 1 (Time: 15 February 2026 03:52:01)	2/15/2026 3:52 AM
filesrv05	CDP Policy 4	Source Daemon Replicator error: Transmitter stream: connect; Cannot assign requested address	2/15/2026 3:51 AM
filesrv05	CDP Policy 4	Proxy connection has been lost: source CDP proxy virt03-proxy001.tech.local, disk Hard disk 1 (Time: 15 February 2026 03:51:58)	2/15/2026 3:51 AM
