

Data Change Rate History

This report shows jobs whose backup files and replica VMs grow fast and may quickly consume space on the target repository or datastore. Supported platforms: VMware vSphere, Microsoft Hyper-V, Nutanix AHV, VMware Cloud Director.

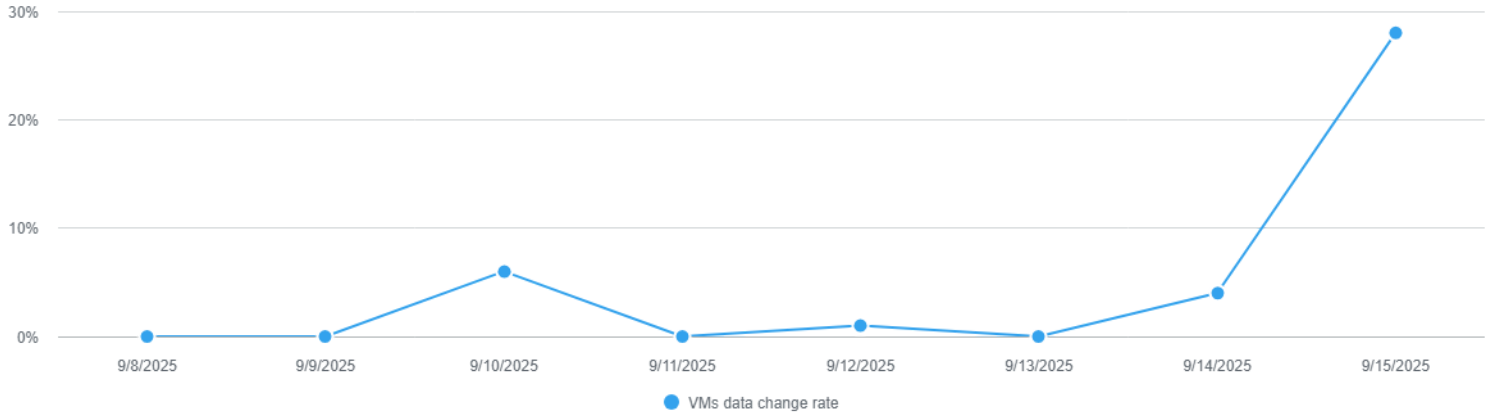

Report Parameters

Infrastructure objects:	Virtual Infrastructure
Range:	9/9/2025 - 9/16/2025
Job types:	All items
Exclude jobs:	—
Calculate change rate based on:	Data transferred

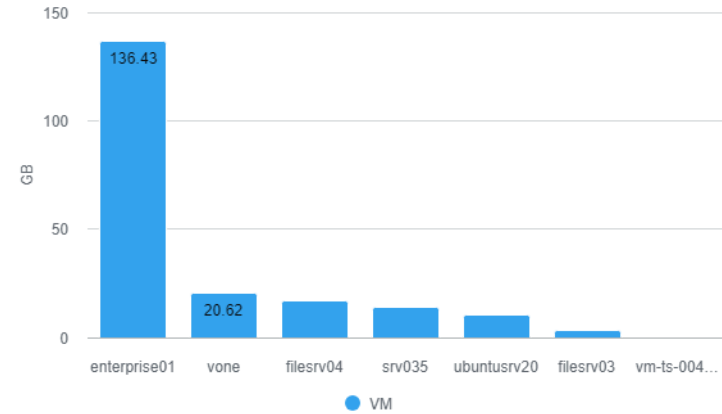

Summary

Total objects:	7
Virtual machines:	7
Computers:	0
Total average change rate:	5%
Average VM change rate:	5%
Average computer change rate:	N/A

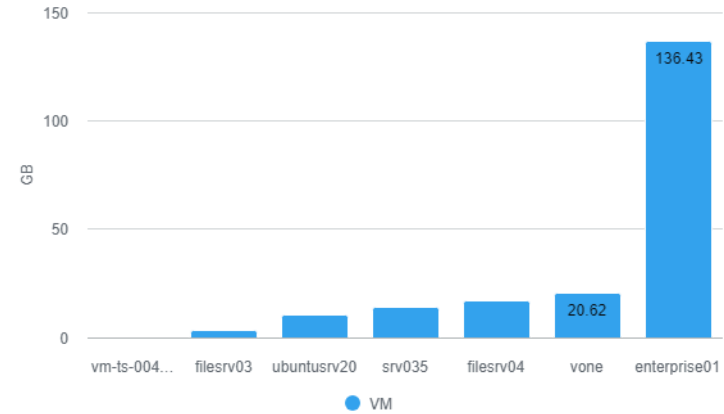

Change Rate History

Objects with Largest Change Rate

Objects with Least Change Rate

Details

172.24.30.100

Backup Job CD

Backup Server	Job Name	Object Name	Object Type	Average Change Rate per Day (GB)	Average Change Rate per Day (%)	Total Incremental Changes (GB)	Total Active Full Backups Data (GB)	Actual Increments File Size (GB)	Actual Full Backup File Size (GB)	Total Backup File Size (GB)	Actual N. of Increments	Actual N. of Full Backups
172.24.30.100	Backup Job CD	vm-ts-004-DQua	VM	0.00	0.00	0.00	0.00	0.00	0.00	0.00	0	1

Backup Job VMware Servers

Backup Server	Job Name	Object Name	Object Type	Average Change Rate per Day (GB)	Average Change Rate per Day (%)	Total Incremental Changes (GB)	Total Active Full Backups Data (GB)	Actual Increments File Size (GB)	Actual Full Backup File Size (GB)	Total Backup File Size (GB)	Actual N. of Increments	Actual N. of Full Backups
