

Datastore Space Usage History

Description

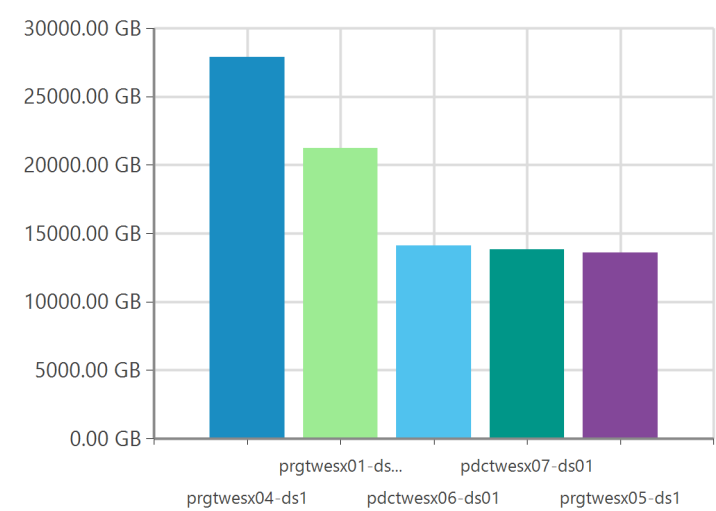

This report shows dynamics of datastore usage metrics, including space usage (free/used) and disk provisioning rates.

Report Parameters

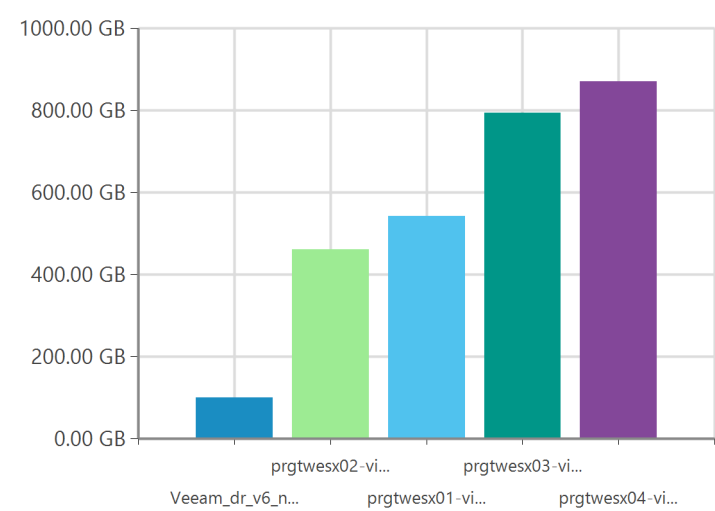

Scope:	Virtual Infrastructure
Reporting period:	1 week (8/20/2025 - 8/26/2025)
Group by:	Virtual Server

Summary

Datastores with Most Free Space

Datastores with Least Free Space

Most Growing Datastores

No data available

Least Growing Datastores

No data available

Details

Datastore	Date	Total Space (GB)	Used Space (GB)	Provisioned Space (GB)	Total VMs	Total VM Templates
Virtual Server: vcenter01.tech.local						
NFSDatastore
